

Share your best moments, live!

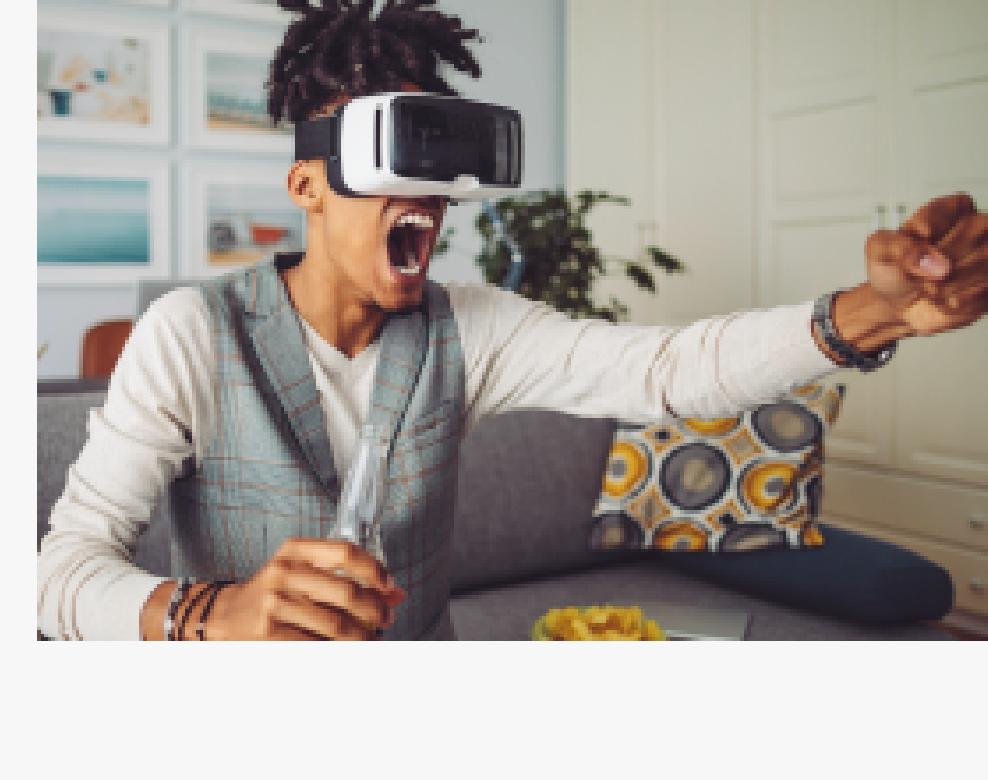

Welcome to Botswana's largest 4G network!

BTC's 4G is powering new experiences for our customers – offering true mobility in covered areas, robust connections and incredible reliability. With blazing fast download speeds, you'll feel like you're connected to broadband with download speeds faster than before. Streaming and gaming entertainment will be forever changed with seamless connectivity, ultra-realistic graphics and human-like reflex response time.

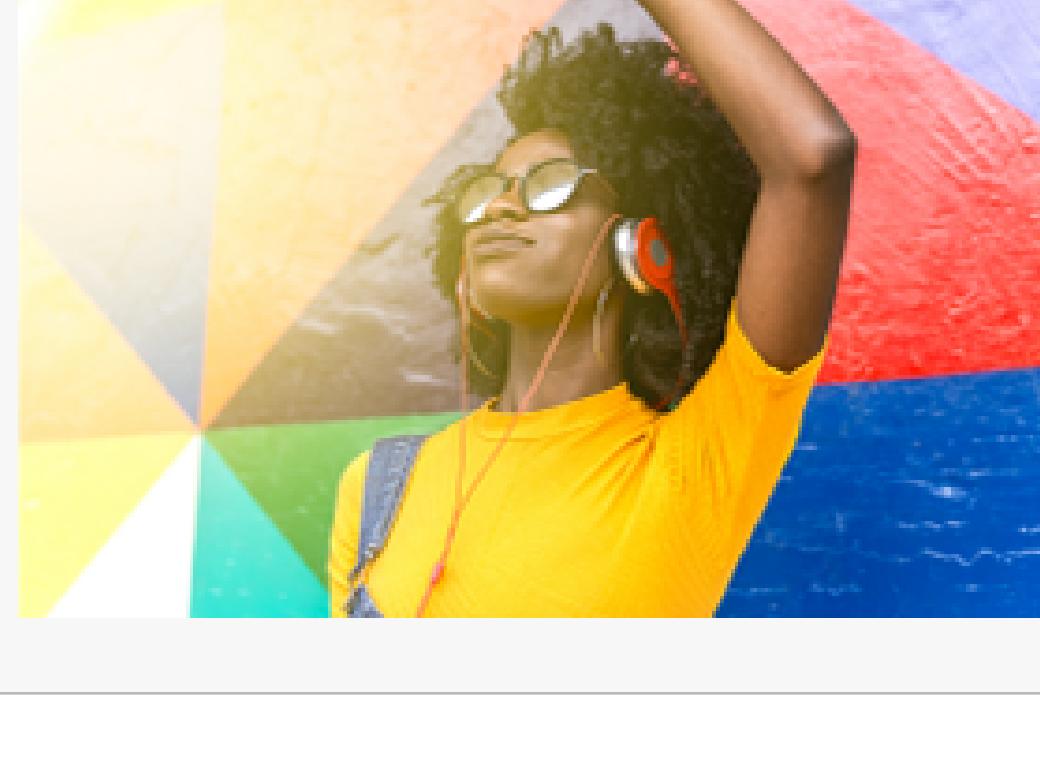

Connect to share social media content

Connecting more than 400 villages, towns and cities nationwide, you can update your stories and share pictures, wherever you are!

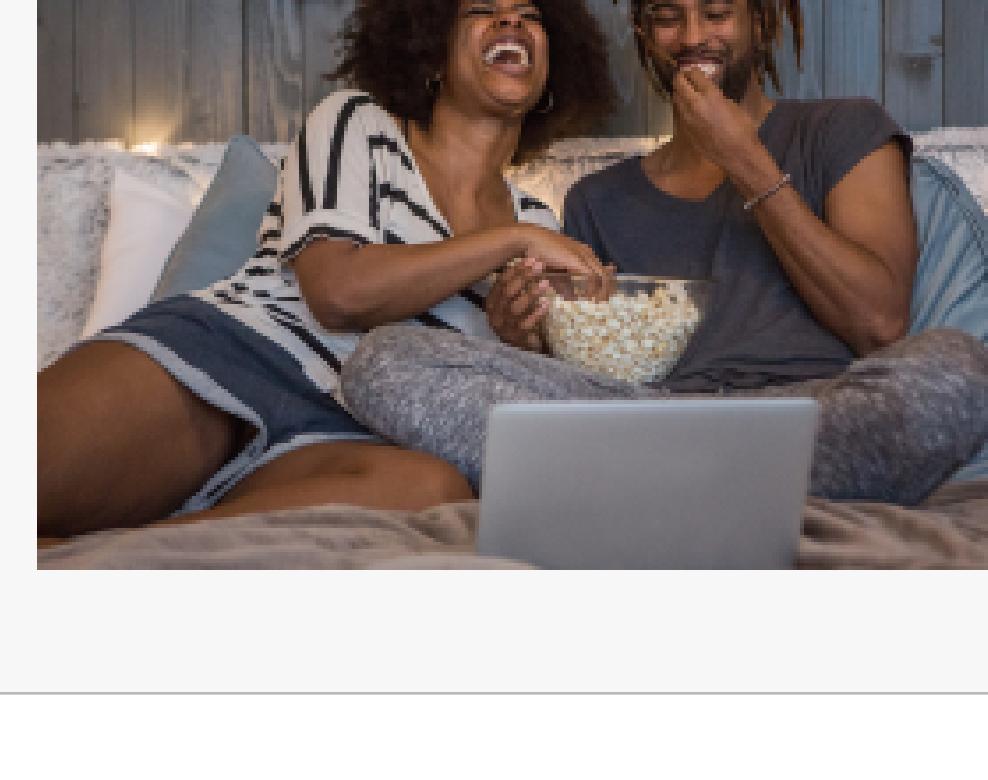

Connect and win every game

No more lags or pauses when you conquer online turfs with consistent Internet speeds of 20Mbps (4G LTE-A), 80% of the time.

Connect and never pause your playlist

Stream your music non-stop everywhere, even underground, with 4G's extensive coverage.

Connect to binge-watch your favourite shows

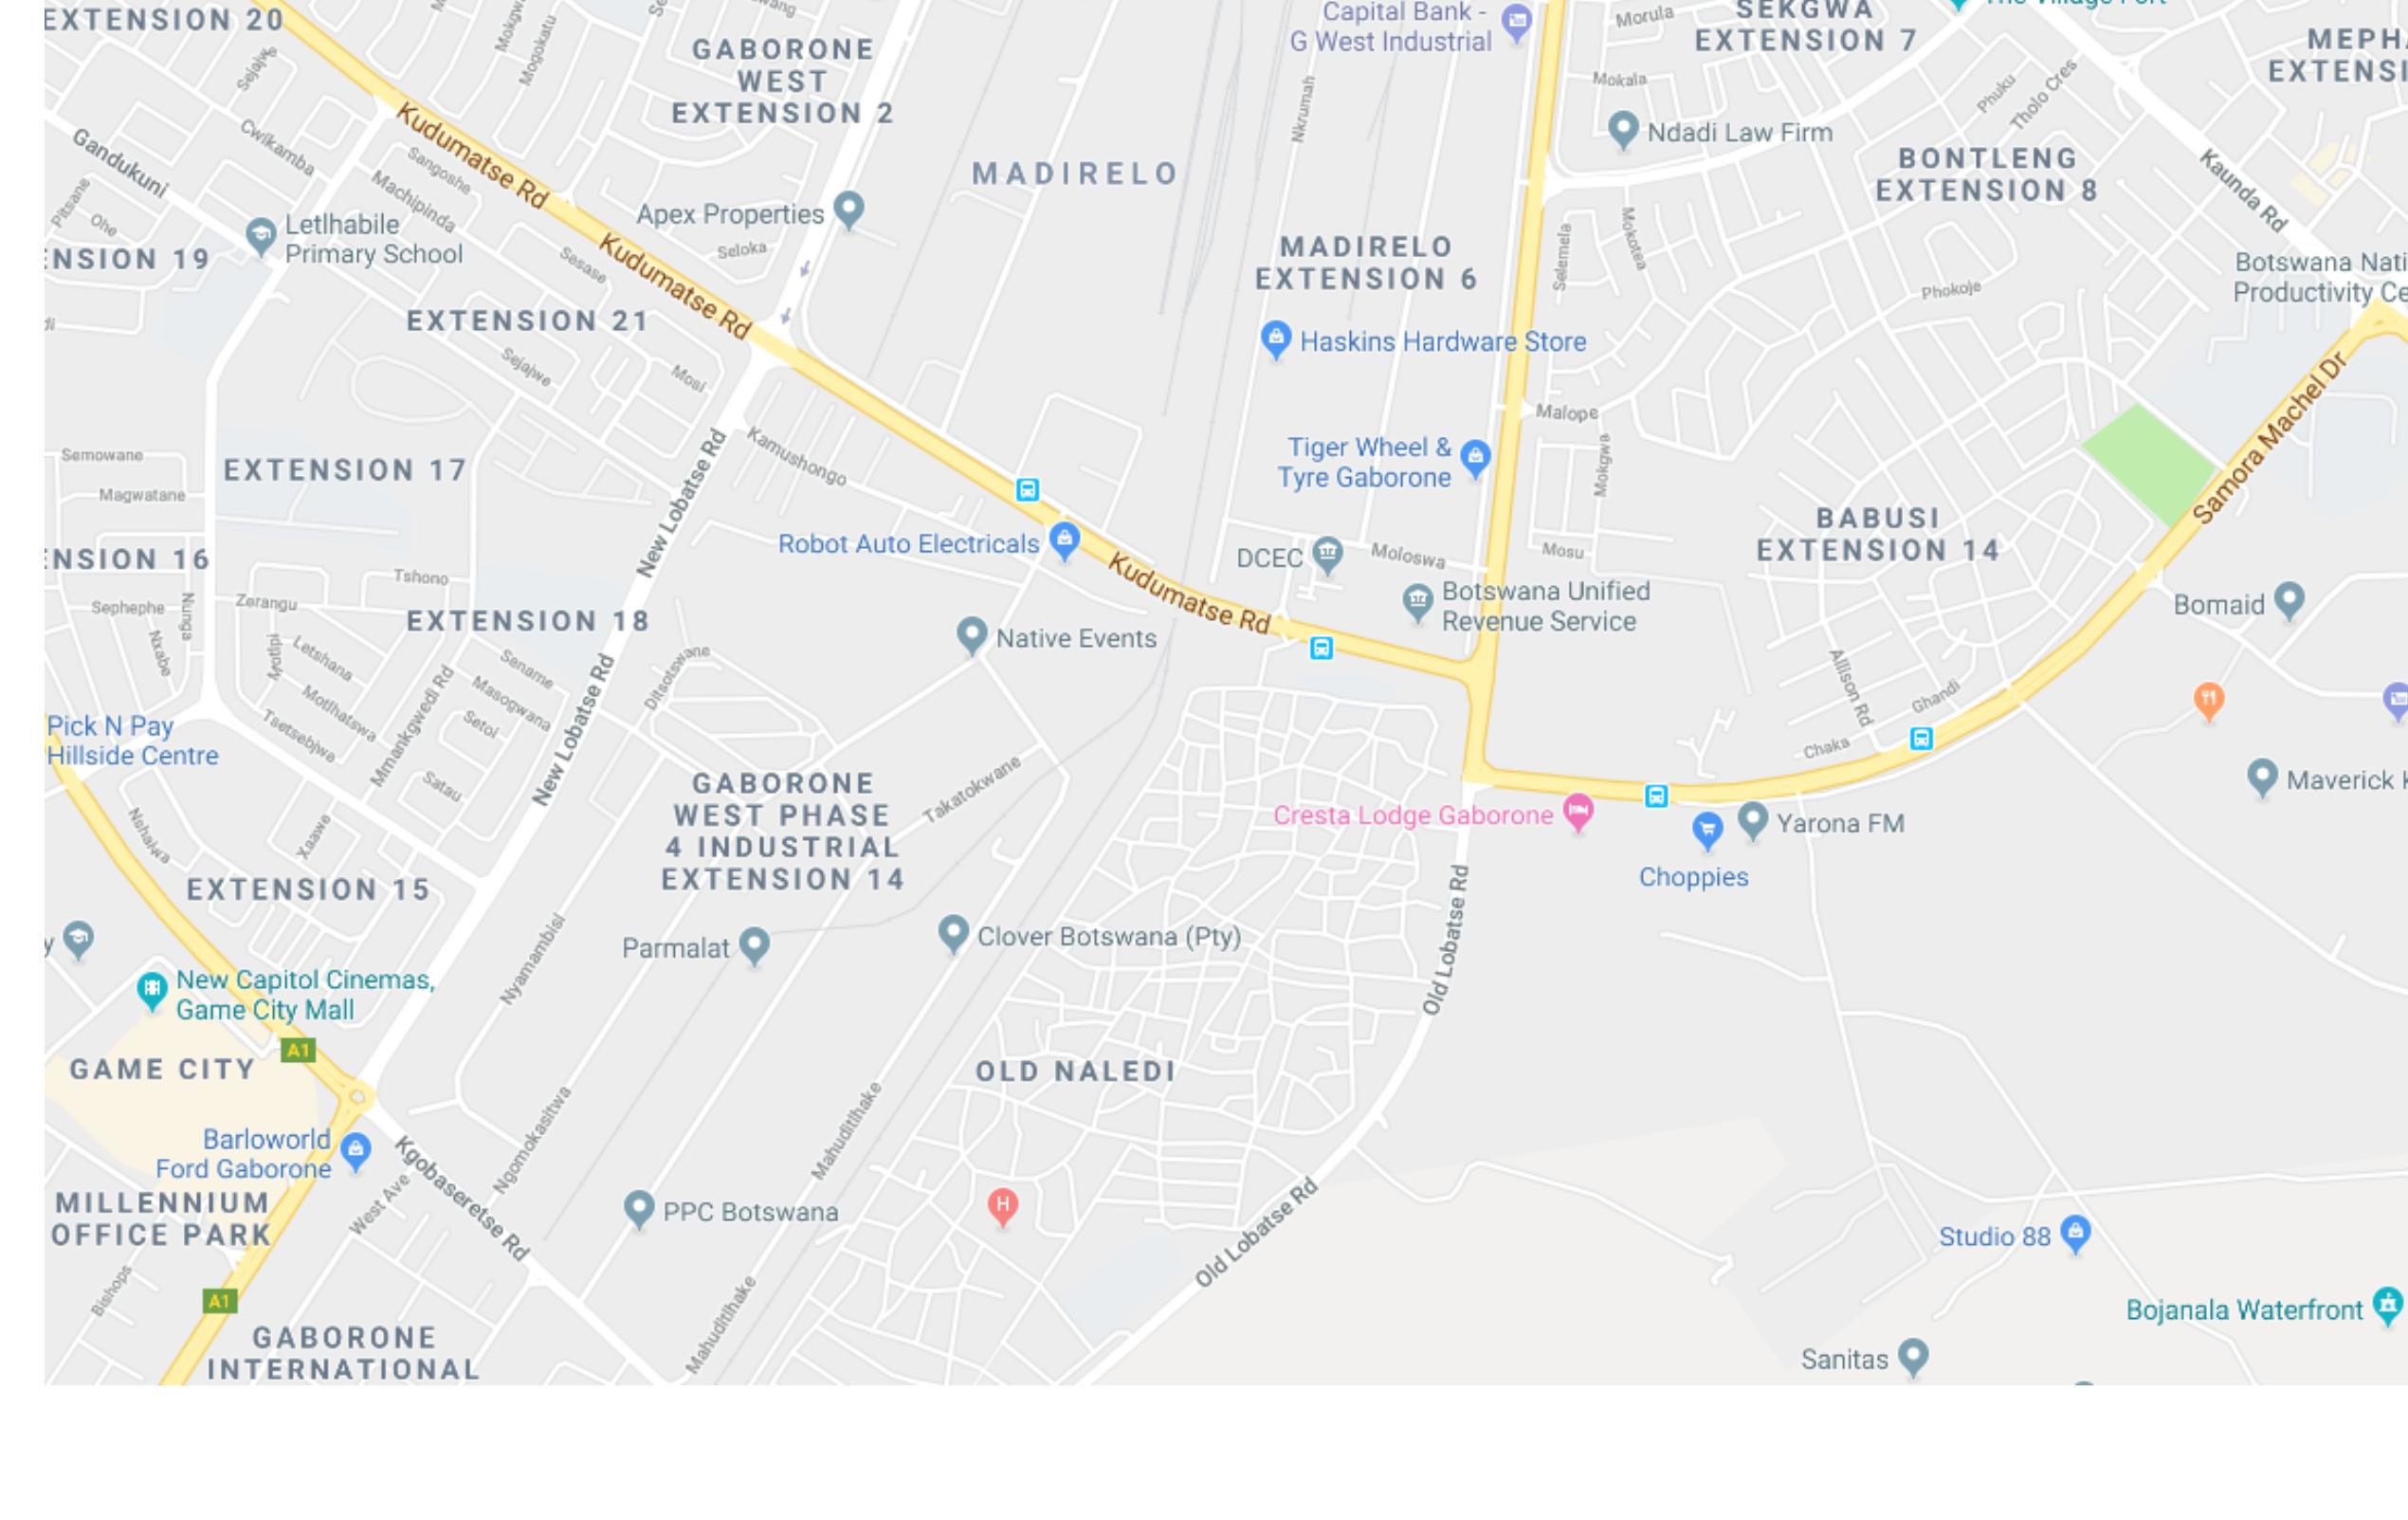

The leading 4G LTE network with 65% population coverage, stream all your favourite movies or dramas, anytime, anywhere.

Discover BTC 4G-LTE

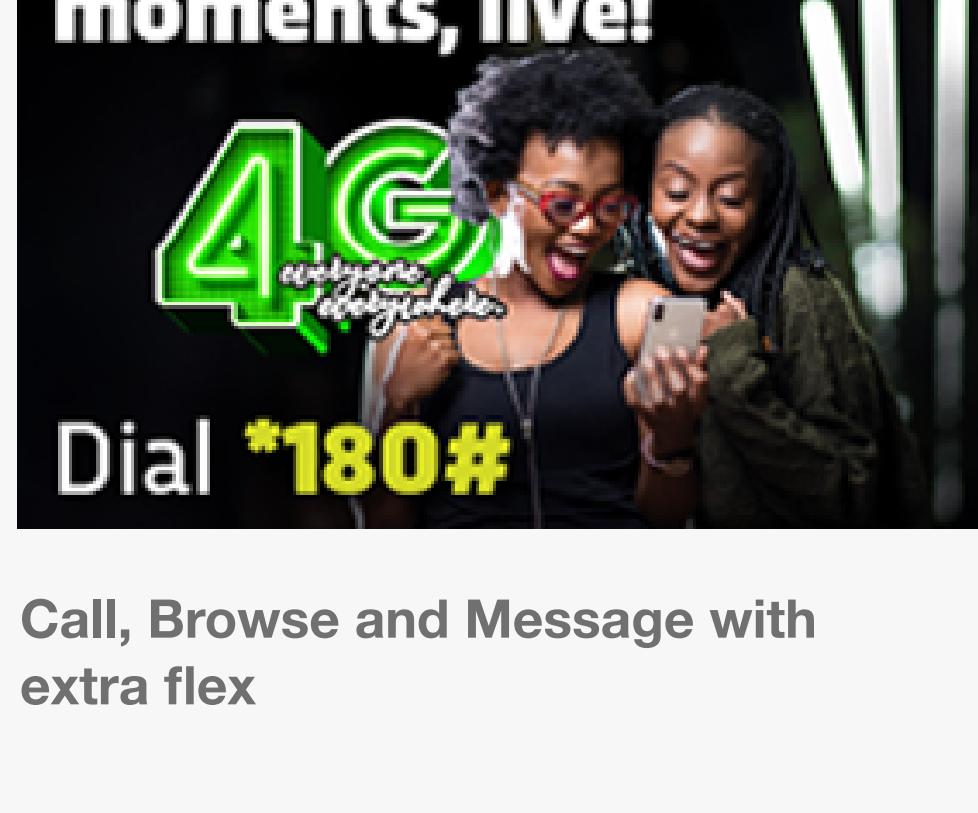

Check our map to see if you're within BTC's coverage area

From cities to rural towns, our 4G LTE network covers over 89% of the population. Use our network coverage checker on the App and find out more about BTC's coverage in your area.
